

House of Pipes and Tubes Since 1968

**DSC PIPES AND
TUBES PVT LTD**

ABOUT US

Established in 1968, we started with a mission to set our footprint in the Pipe market striving from the beginning to deal with quality pipes and to maximize customer satisfaction. We have grown since then, becoming one of the most known dealers of MS Pipes in India.

Today, we pride ourselves of our network, having warehouses in Chennai, Mumbai, Kolkata and Ahmedabad amounting to 1.5 million sq. ft in area. Our presence across the nation guarantees the reach of our products to customers across the country.

OUR MISSION

"To judge ourselves not by our profits, but by the trust and confidence of our customers express in doing business with us. We shall cherish and nurture this trust as we shall do for our growth in business "

We thus cater to a large proportion of the industries in India such as steel plants, oil refineries, mining units, cement plants, chemical manufacturers, shipbuilders and project contractors having about 800 different varieties of pipes to offer in terms of categories and sizes which includes Seamless, ERW, hydraulic and Galvanised pipes, PVC pipes and fittings, boiler, alloy and low-temperature tubes, steel products and pipe fittings in various specifications like ASTM, API, ISI, and DIN. To meet urgent requirements and maintain timely delivery, we keep about 3000 tons of ready stock to cater to all the needs of our customer

The quality of our products is what sets us apart. We maintain the same by conducting an inspection of the material at arrival and dispatch at all warehouses. Further, we procure materials only from reputed manufacturers such as Jindal, Sail, TATA, MSL and ISMT that comply with various Indian as well as international standards. Dealership with such manufacturers further aids us in logistically executing orders across the country.

With continuous investment in our products and capabilities, we hope to maintain our growth rates and most importantly our commitment to our core value of customer satisfaction.

OUR VISSION

"To be the most preferred and trusted resource for the tube and pipe products that will go into building the support infrastructure and growth of India. We will enable this in an environment of trust, cooperation and mutual respect."

PRODUCT RANGE

<u>PRODUCTS</u>	<u>OUTER DIAMETER (OD)</u>	<u>WALL THICKNESS</u>
Carbon steel seamless pipes	(OD) 10 mm to 610 mm	(WT) 0.5 mm to 50 mm (Sch 20 To XXS)
Seamless boiler tube	(OD) 19.05 mm to 127 mm	(WT) 2.05 mm to 12.7 mm
ERW pipes	(OD) ½" NB to 6 NB	(WT) Light ,Medium, Heavy (A,B,C Class)
	(OD) 168.3 mm to 20	(WT) 4 mm to 12.7 mm
G.I pipes	(OD) ½" NB to 6 " NB	(WT) Light ,Medium, Heavy (A,B,C Class)
	(OD) 8" NB to 12" NB	(WT) 5mm to 8mm
ERW Boiler tube	(OD) 19.05 mm to 101.6 mm	(WT) 2 mm to 5 mm (Air Pre heater tube)
Low temperature pipes	(OD) ½" NB to 14 NB	(WT) All Schedule From (Sch 20 To XXS)
Alloy steel pipes	(OD) ½" NB to 14 NB	(WT) All Schedule From (Sch 20 To XXS)
Submerged ARC welded (HSAW/LSAW)	(OD) 24" to 100"	(WT) 5 mm to 40mm
